

## Dianthus Season Begins with Mast Young Plants

They're loving the improved quality! Check out their Instagram channel and read their story (link below)

In 2022, Selecta One announced that it now offers Dianthus cuttings direct to U.S. customers through its farm in Kenya, and Mast Young Plants is a happy recipient of these excellent cuttings!

Check out the company's Instagram post [@mastyoungplants](#) to watch as their first shipment is readied for greenhouse customers in time for the early Dianthus-selling season.

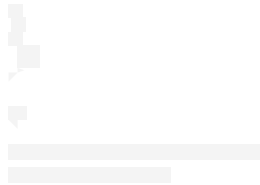

Mast Young Plants also shared company news at its website: "[Improved Quality Dianthus Cuttings from USDA-Approved Kenyan Farm](#)".

"We're pleased to be one of the first growers to offer these Dianthus cuttings to our customers," the team writes. The Dianthus series Mast chose to offer are SuperTrouper and Oscar, two strong performers in pots or the garden. "Because Kenya's climate is well suited to growing Dianthus cuttings, the quality of these first SuperTrouper and Oscar varieties shipping out is excellent," they claim.

Now's your time to experience this quality yourself! [Contact your supplier](#) to place your order today. And check out our new [Dianthus & Pot Carnations webpages](#) for product selection tools, retail support and more.
