

## 2026 Petunias and Petchoas Brochure Now Available

Explore a wide assortment of Selecta One® varieties of both Petunias and Petchoas.

This new 2026 brochure offers customers a one-stop-shop for [Petunia and Petchoa varieties from Selecta One](#). Delivering innovation that growers can count on, our bold, high-performing varieties thrive in baskets, containers, and landscapes — offering vibrant color and dependable growth. With options across every habit, vigor level, color, form, and pattern — including standout Sky types — our petunias are bred to meet the demands of your production and exceed customer expectations. Count on Selecta One to help you grow success from the greenhouse to the garden center.

When you combine the weather resilience of petunias with the vivid color power of calibrachoas, you get Petchoa EnViva™ — a premium series engineered for success in the greenhouse and beyond. EnViva thrives in heat and handles rain with ease, while its vibrant color range of red, white, and blue varieties make EnViva a standout for summer promotions and patriotic displays. Don't miss EnViva Pink — a proven favorite with standout vigor and shelf appeal.

Selecta One Petunias are available in four series of different habits:

- Starlet™ (compact)
- Headliner™ (medium)
- SweetSunshine™ (medium)
- Main Stage™ (large)

In this 2026 brochure, you'll find a full chart with all the variety names and colors to check out. See which ones fit your program and contact your favorite sales rep to order now from one of many [Selecta licensed Root & Sell Stations](#).
