- C good

## A PROMISE OF

# Quality

Selecta One delivers quality products with innovative breeding, advanced technology and internationally certified production sites.

### Our core principles include:

- Breeding for robust improvements, including resistance to pests and diseases.
- Investing in advanced laboratory facilities for diagnostics, tissue culture and vase life testing.
- Adhering to global quality standards for growing certifications.
- Optimizing logistics to add value at every stage of the supply chain.
- Emphasizing environmental responsibility, including using renewable energy at production sites.

### Quality Testimonial

*"I used to deal with inconsistency in rooting with domestic dianthus suppliers, but your 'Kenyan consistency' has given me a new confidence in dianthus rooting."*

**Garett Vaisman**  
Grower at Lucas Greenhouses  
Monroeville, New Jersey

# GROW YOUR *Dianthus* YOUR WAY

We ship our high-quality dianthus reliably via air into the U.S. and Canada as unrooted cuttings and Callus+ cuttings. We also offer rooted liners at a supplier near you. Take advantage of our product range and professional handling to broaden your dianthus program!

## Save time and money with Callus+ Cuttings.

- Save money by eliminating IBA rooting hormone expense.
- Reduce propagation time by at least 2 weeks.
- Reduce shrink by achieving 100% rooting success.
- Reduce risk with proven success from extensive North American trials.

# WHAT'S YOUR TYPE?

## Annuals

Look to low-maintenance annual dianthus varieties to brighten containers, landscapes, rock gardens, flower beds and cut flower gardens. Their fragrances are delightful, and their colors attract butterflies, bees and other beneficial pollinators.

## Perennials

With hardiness to USDA Zone 5, these frost-hardy, early-season tender perennials provide home gardeners and professional landscapers with wonderful fragrances and dependable blooms atop frilly green and blue-green foliage.

## Potted **FOR INDOORS & OUTDOORS!**

Opportunities abound for potted dianthus to add pops of color to indoor (or outdoor) spaces! Expand your standing as a potted plant producer with these gorgeous varieties for Valentine's Day, Mother's Day and impulse purchases throughout the year.

# Dianthus

## SMART CHART

Shop annuals, perennials, outdoor pots and indoor pots for gift-giving occasions, and in-ground varieties for cut flowers and landscapes.

Series	Indoor/ Outdoor Potted	Landscape	Perennial	Annual	Flower Type	Size/ Habit	Pot Sizes	Description
<b>Capitán™</b>		✓	7a	✓	Double	Upright	2.5 qt., (2.8 L) 8 to 14 in (20 to 35 cm) planters	<ul style="list-style-type: none"> <li>• Large, vigorous plant.</li> <li>• Can be used as a cut flower.</li> <li>• Great in ground and in containers.</li> <li>• Long season flowering.</li> </ul>
<b>DiaDeur™</b>	✓		6a	✓	Double	Medium Upright	6 in. to 2.5 qt. (1 to 2.8 L)	<ul style="list-style-type: none"> <li>• Fully double blooms.</li> <li>• Fragrant flowers.</li> <li>• Multicolored blooms.</li> <li>• Ideal for container and garden use.</li> </ul>
<b>Early Love®</b>	✓		7a	✓	Double	Compact Upright	4 to 6 in. (10 to 15 cm)	<ul style="list-style-type: none"> <li>• Excellent branching.</li> <li>• Early flowering.</li> <li>• Large, double bicolored blooms.</li> <li>• Ideal bouquets for Valentine's Day.</li> </ul>
<b>EverLast™</b>		✓	5a	✓	Single and Double	Medium Upright	2.5 qt. (2.8 L)	<ul style="list-style-type: none"> <li>• Extremely floriferous.</li> <li>• Blooms early in Spring, late into Summer, again in Fall.</li> </ul>
<b>I Love U</b>	✓		7a	✓	Double	Compact Mounded	2 to 4 in. (5 to 10 cm)	<ul style="list-style-type: none"> <li>• Colors range from deep pink to white.</li> <li>• Marketing retail program available.</li> </ul>
<b>Oscar®</b>	✓		6a	✓	Double	Compact Upright	4 in., 1 qt., (10 cm, 1 L) bowls, planters	<ul style="list-style-type: none"> <li>• Excellent bloom life.</li> <li>• Heat and frost tolerant.</li> <li>• Blooms last in various conditions.</li> <li>• Ideal as a potted gift plant.</li> </ul>
<b>Pashmina™</b>		✓	5b	✓	Petite Single	Low- Growing	Packs to 2.5 qt. (2.8 L)	<ul style="list-style-type: none"> <li>• Very well-matched series.</li> <li>• Perfect for core color gallon programs.</li> <li>• Good for large indoor pot carnations.</li> </ul>

# GROWING GUIDELINES

## PROPAGATION

- Choose a well-drained medium with an EC of 0.75 to 0.80 mmhos and a pH of 5.5 to 5.8.
- Dianthus cuttings should be stuck on the day of arrival. Cuttings can be stored overnight at 39 to 45°F (4 to 7°C). Soaking the cuttings in water for 1-4 hours, cut end down, "asparagus style," can help prevent cuttings from drying out. Cuttings arrive bundled to make this easy.
- A rooting hormone is recommended to promote early, uniform rooting. IBA at 1,000 ppm dip is preferred.
- Soil temperature should be maintained at 68 to 72°F (20 to 22°C) until roots are visible.
- Mist heavily in the first few days to prevent desiccation. Reduce mist after 4 to 5 days to prevent excess water in the media. Too wet media will result in heavy callus and slow rooting.
- Begin fertilization when roots become visible with 75 to 100 ppm N. Increase to 150 to 200 ppm N as roots develop.
- Pinching is used to remove the first bloom, and to increase fill for larger containers. It is not needed with some varieties. Configure can be applied to enhance branching in no-pinch scenarios.
- Dianthus rooted cuttings should be ready for transplanting 28 to 33 days after sticking.

Easy, bundled cuttings

Configure

Pinching

3 Weeks After Stick

## GROWING ON TO FINISH

- Use media with good aeration, drainage and water-holding capacity. Maintain pH 5.8-6.4.
- Dianthus should be grown cool or cold, depending on the type of production. See scheduling chart on page 5.
- For cold season production, grow in high light conditions.
- Feed regularly at 200-300 ppm N from a complete 17-5-17 cal-mag formula fertilizer.
- Avoid dramatic swings in media moisture to avoid root rot and other diseases.
- Watch for Alternaria leaf spot. This fungal pathogen is the most common disease.
- When grown cool, dianthus will need little or no PGR. When needed from warm temperatures and/or vigorous varieties, PGR options include paclobutrazol sprays at 1-2 ppm, daminozide at 2,500 ppm or chlormequat chloride at 500-750 ppm.

Selecta One varieties are available as rooted cuttings from Selecta One licensed Root & Sell Stations. Contact your favorite broker for ordering details.
