Christmas Glory™ White Poinsettia

Christmas Glory™ Poinsettia

This compact series is perfect for 6-in. (15-cm) and smaller pots and thrives in cool temperatures for better energy savings. Christmas Glory provides uniformity across all colors and even branching, with bright, non-fading bracts all on top. The entire series is available as mini cuttings, for more plants per rack.

Characteristics

Season:	Foliage:	Natural Flower (first pollen):	Response Time in weeks (first pollen):	Vigor:	Average Bract Size:	Post Harvest:

1. Energy Efficient/Space Efficient:

Varieties are rated from most (●●●) to least (●) efficient. Contact us for guides.

2. Cool Finish:

Indicates minimum temperature starting two weeks after the beginning of short days. Please note that a crop grown cooler requires more time to finish (4 to 7 days), and will have smaller bracts and darker color (for example, white may turn cream-yellow). Toward the end of the crop (two weeks prior to shipping), slowly lower the temperature for green-leafed varieties to 65°F (18°C) day/night and dark green-leafed varieties to 63°F (17°C) day/night.

NOTE: Growers should use the information presented here as guidelines only. Selecta recommends that growers conduct a trial of products under their own conditions. Crop times will vary depending on the climate, location, time of year, and greenhouse environmental conditions. It is the responsibility of the grower to read and follow all the current label directions relating to the products. Nothing herein shall be deemed a warranty or guaranty by Selecta of any products listed herein. Selecta's terms and conditions of sale shall apply to all products listed herein.
